FINAL EXAMINATION
MATH 1004
Winter 2019
SOLUTIONS

DURATION: 3 HOURS

Department Name and Course Number: School of Mathematics and Statistics, MATH 1004 H
Course Instructor(s): Dr. A. B. Mingarelli

AUTHORIZED MEMORANDA
CALCULATORS PERMITTED, NO WIRELESS DEVICES

In addition to the EXAMINATION PAPER students will require an ADDITIONAL ANSWER BOOK, and a SCANTRON SHEET.

1. Please verify that you are in possession of a Scantron FORM.
2. Please **fill in your COURSE CODE** (e.g., MATH 1004) and **COURSE SECTION** (e.g., A, B, C, D, E, F), **YOUR NAME** and **YOUR STUDENT NUMBER** where required on the Scantron form.
3. **The examination consists of one sheet of legal size paper with text on BOTH sides.** It is out of a total of 100 and consists of 25 multiple choice questions each worth 4 marks. **Please fill in only one answer on your Scantron sheets with a pencil** as there is only one answer to any given question. Circling two or more answers to any question invalidates that question (*i.e.,* you get 0 marks for that question).
4. **This exam may be released to the Library and may be taken away by the student.**

Return the SCANTRON form ONLY. .
